📁 Portfolio

Results-oriented Full Stack Developer with expertise in React.js, Node.js, Express.js, Python, MongoDB, and MySQL. Experienced in designing, developing, deploying, and maintaining scalable web applications and RESTful APIs. Hands-on experience with AWS EC2, Docker, GitHub Actions, CI/CD pipelines, Linux server administration, and production deployments. Strong understanding of software development lifecycle, cloud deployment, database management, and modern web development practices. Familiar with Agile development practices, Git-based workflows, and collaborative software development.

SKILLS

FrontEnd:	React JS, HTML5, CSS3, JS (ES6+), Tailwind CSS	Tools:	Postman, VS Code, Figma
BackEnd:	Node.js, Express.js	API:	REST API, JSON
DataBase:	MySQL, MongoDB	Prog. Lang:	Python, C#
Cloud & DevOps: AWS EC2, Docker, Git, GitHub, GitHub Actions, CI/CD, Nginx			

PROFESSIONAL EXPERIENCE

Full Stack Product Development | Authentication & AI SaaS Products

Decivise – Authentication Platform

- Built frontend dashboards and authentication workflows using React.js.
- Developed REST APIs using Node.js, Express.js, and MongoDB.
- Implemented Mobile OTP, Email OTP, WhatsApp OTP, and Magic Link authentication.
- Developed API Playground for real-time authentication testing.
- Built secure user verification, session management, and onboarding flows.

MorningMute – AI Email Assistant

- Built AI-powered email management platform using React.js, Node.js, and MongoDB.
- Integrated Gmail APIs, OAuth authentication, and email automation workflows.
- Developed email classification, prioritization, and AI-generated response features.
- Managed Linux-based production application & deployed containerized applications using Docker on AWS EC2.
- Configured Nginx, SSL certificates, domain routing, and production environments.
- Implemented CI/CD pipelines using GitHub Actions for automated deployments

PROJECTS

Finsight AI Finance Tracker (May 2026)

- Built a production-ready finance management platform using React.js, Node.js, Express.js and MongoDB.
- Developed RESTful APIs for authentication, transaction processing and analytics.
- Integrated Gemini AI to classify transactions and generate spending insights.
- Implemented secure JWT authentication and role-based access control.
- Processed CSV, Excel and PDF bank statements through automated extraction pipelines.
- Deployed application architecture with scalable backend services.

Voice Activated AI Customer Advisor (Feb 2026)

- Developed a voice-enabled AI customer advisor using Python, Rasa and JavaScript.
- Built state-aware conversational workflows supporting multi-turn dialogue and entity extraction.
- Integrated Web Speech API for real-time speech recognition and synthesis.
- Designed backend services to process customer requests and automate query resolution.
- Achieved 95% automated query resolution during testing.

EDUCATION

Bachelor of Engineering: Computer Science

Priyadarshini Engineering College, Vellore

Jun 2024

8.1 CGPA1

Higher Secondary Education

Selva Higher Secondary School, Krishnagiri

Mar 2020

64.5 %

Secondary Education

Crescent Matriculation School, Gudiyatham

Apr 2018
